

# PRESS RELEASE

## Charges for Job Applications

6<sup>th</sup> July 2017

It has come to our attention that there are individuals and cartels soliciting for money from members of the public with a promise to secure them job opportunities at the Commission.

We wish to categorically state that the Energy Regulatory Commission (ERC) does not charge any fee whatsoever for job application or processing. Recruitment at the Commission is done through a rigorous and competitive process.

At no point during the application and recruitment process are the applicants asked to pay any money.

Members of the public are requested to take CAUTION and report any suspected individuals or cartels engaging in this retrogressive act of illegally extorting money from unsuspecting members of the public to the police station nearest to them, or through our hotline number **0708 444 000** or **info@erc.go.ke**.

Robert Pavel Oimeke - **AG Director General**
