

Legal Notice:

THE ENERGY ACT, 2006

(No 12 of 2006)

THE ENERGY (IMPROVED BIOMASS COOKSTOVES) REGULATIONS, 2013

- Citation* 1. These Regulations may be cited as the Energy (Improved Biomass Cookstoves) Regulations, 2013.
- Application* 2. These Regulations shall apply to manufacturers, importers, distributors, technicians, and contractors of Improved Biomass Cookstoves; and institutions using biomass fuels for cooking and heating purposes.
- Interpretations* 3. In these Regulations, unless the context otherwise requires –
- “**Act**” means the Energy Act No. 12 of 2006;
 - “**approved**” means authorisation granted by the Commission;
 - “**biomass**” has the meaning assigned to it under the Act;
 - “**commission**” has the meaning assigned to it under the Act;
 - “**contractor**” means a person that provides goods or services to another entity under terms specified in a contract;
 - “**cookstove**” means a device where biomass fuel produces heat for cooking and heating applications through combustion;
 - “**distributors**” means a person who is involved in sourcing cookstoves from manufacturers and selling to retailers and other end users;
 - “**improved biomass cookstove**” means a biomass cookstove that complies to Kenya Standard KS 1814-1:2005 and any subsequent Kenya Standard;
 - “**Institutional users**” means any person or facility producing food for sale for more than ten people which includes entities listed in the First schedule;
 - “**Licence**” means any document or instrument in writing granted under these Regulations, to any person authorizing the Manufacture, importation, distribution and installation of Improved Biomass Cookstoves;

“manufacturers” means a person who makes cookstoves components or products through a process involving raw materials, components, or assemblies;

“technician” means a person licensed by the Commission to undertake the manufacture and/ or installation of improved biomass cookstoves.

*Requirements for
Manufacturers,
Importers,
Distributors,
Contractors,
Technicians and
Institutional
Users*

- 4.
- (1) A person manufacturing, importing, distributing, or installing Improved Biomass Cookstoves shall be required to obtain the necessary Licence from the Commission.
 - (2) Institutional Users utilizing biomass for cooking, heating and other energy requirements shall be required to install Improved Biomass Cookstoves.
 - (3) Contractors and technicians of Improved Biomass Cookstoves shall be required to issue an installation completion certificate and a user manual with appropriate illustrations in any of the Kenya official languages.
 - (4) Institutional Users shall be required to maintain records of Manufacturer, specifications, annual biomass consumption, date of Installation, Distributor, Technician, Contractor, and certificate of completion.

*Requirements for
Licensing of
Improved Biomass
Cookstoves
Technicians*

- 5
- (1) A person shall not install an Improved Biomass Cookstoves unless they hold a valid Licence issued by the Commission.
 - (2) A person wishing to be licensed by the Commission as a Technician shall be required to-
 - (a) meet the required qualifications as set out in the Second Schedule.
 - (b) fill an application form as set out in the Fourth Schedule and
 - (c) pay to the Commission the fee set out in the Third Schedule.
 - (3) The Commission may, upon receipt of an application, grant to the applicant either of the following classes of Technician Licence-
 - (a) **Class J1 Licence**, which shall entitle the holder to carry out installation and maintenance of Improved Biomass Cookstoves for households;
 - (b) **Class J2 Licence**, which shall entitle the holder to carry out installation and maintenance of Improved Biomass Cookstoves

for households and institutional users;

- (c) **Class J3 Licence**, which shall entitle the holder to carry out installation, maintenance and specification for importation of Improved Biomass Cookstoves for households and institutional users.

*Requirements for
Licensing of
Improved Biomass
Cookstoves
Manufacturers,
Importers,
Distributors and
Contractors*

- 6 (1) A person shall not manufacture, import, distribute, or install any kind of Improved Biomass Cookstoves unless the person holds a valid Licence issued by the Commission.
- (2) A person wishing to manufacture, import, distribute, or install any kind of Improved Biomass Cookstoves shall make an application to the Commission in the form prescribed in the Fifth Schedule.
- (3) Where under this regulation a person who is not a Technician applies to be licensed by the Commission as a Manufacturer, Importer, Distributor or Contractor, that person shall be required to have in his employment a licensed Improved Biomass Cookstoves Technician.
- (4) The Commission, upon receipt of an application under this section, may grant one of the following Licences –
- (a) **Class B1 Licence**, which shall entitle the holder to carry out manufacturing, distribution and installation of household Improved Biomass Cookstoves only, in which case the licensee shall be required to have in employment at least a Class J1 Technician;
- (b) **Class B2 Licence**, which shall entitle the holder to carry out distribution and installation of household and institutional improved biomass cookstoves, in which case the Contractor shall be required to have in employment at least a Class J2 Technician;
- (c) **Class B3 Licence**, which shall entitle the holder to carry out manufacturing, distribution and installation of household and Institutional Improved Biomass Cookstoves, in which case the licensee shall be required to have in employment at least a Class J2 Technician;
- (d) **Class B4 Licence**, which shall entitle the holder to carry out importation, distribution and installation of household and institutional biomass cookstoves, in which case the licensee shall be required to have in employment at least a Class J3 Technician.
- (5) An application for the licensing as a Manufacturer, Importer,

Distributor, Or Contractor shall be made to the Commission in the manner prescribed in the Fifth Schedule and such application shall specify the class of Licence in respect of which the application is made.

(6) Any person applying for a Licence under sub-regulation (4) shall pay to the Commission the fee prescribed in the Sixth Schedule.

General conditions for Licences 7

(1) The Commission upon receipt of an application may approve or reject a Licence application and in the event that it rejects an application, it shall write to the applicant giving reasons for such refusal.

(2) The Commission may require or cause an applicant under these Regulations, to be examined, in such manner as it may determine, upon any matter or thing in connection with the application for the purpose of engaging in or undertaking improved biomass Cookstoves manufacturing, importation, distribution or installation.

(3) The Commission shall determine all applications expeditiously and in any case, not later than ninety days from the date of receipt of the application.

(4) A Licence issued under this Regulation shall be valid for one year from the date of issue.

Powers of Inspection 8

(1) The Commission or its agent may carry out inspection, in relation to the manufacture, importation, distribution or installation of Improved Biomass Cookstoves In Accordance With The Act.

(2) Upon request and after inspection, the Commission shall issue a compliance certificate where the Manufacturer, Importer, Distributor, Contractor or Institutional User of Improved Biomass Cookstoves complies with these Regulations.

(3) An inspection under sub-regulation (2) shall be carried out at the Licencee's cost and the compliance certificate shall be valid for a period of one year.

(4) Where the Commission finds that the provisions of these Regulations have been contravened by a Manufacturer, Importer, Distributor, Contractor, Technician or Institutional User, or that a condition has arisen which has the potential of contravening these Regulations, the Commission or its agent may issue a non-compliance notice thereof.

(5) A notice issued under sub-regulation (4) shall state-

(a) the specific provisions which have been or are likely to be contravened;

(b) the measures which should be taken to rectify the contravention;

and

(c) the period within which the notice shall be complied with.

The Institutional Users, where applicable, shall upon request by the Commission or its agent provide any information required in order to ascertain the performance of the Improved Biomass Cookstoves in a format set out in the Seventh Schedule.

*Suspension and
Revocation of
Licences*

9 (1) The Commission may suspend or revoke any Licence issued under these Regulations upon being satisfied that the Licencee has contravened any of the terms and conditions of the Licence or any provision of the Act.

(2) Upon the suspension or revocation of a Licence under sub regulation (1), the Commission shall by written notice to such Licencee, which shall set out the reasons thereof and such notice may disqualify the Licencee from holding a Licence or a particular type of Licence for such period as the Commission deems fit.

(3) When a Licence issued by the Commission, expires and an application for renewal is not made for two consecutive years, upon application for renewal, the applicant shall be required to give compelling reasons to the Commission as to why the Licence ought to be renewed unless the applicant had before expiry of the Licence informed the Commission in writing of the intention and reasons for not renewing the Licence.

(4) Where the Commission suspends or revokes the Licence of a manufacturer, importer, distributor, contractor or technician, it shall remove the name of the holder from the register of Licencees for the period being Licenced under these Regulations.

(5) Every Licence, unless it is suspended or revoked, shall remain in force until it expires and shall not be transferable and may be renewed subject to such conditions as may be specified by the Commission.

*Application for
Renewal and
replacement of
Licence*

10 (1) An application for renewal of a Licence shall be made at least ninety days before the expiry date of the Licence in the manner prescribed in the Fifth Schedule.

(2) An application for renewal of an manufacturer's, importer's, distributor's, contractor's or technician's Licence shall be accompanied by annual returns of their activities to the Commission in the format prescribed in the Eighth Schedule.

(3) Where, upon application, it is shown to the satisfaction of the

Commission that a Licence has been lost, destroyed or defaced; the Commission may issue a duplicate Licence.

Warranty on Improved Biomass Cookstoves 11 (1) A Manufacturer, Importer, Distributor, Contractor or Technician shall provide a warranty to the customer for the Improved Biomass Cookstoves for the periods set out in the Kenya Standard KS 1814-1:2005 and any other Kenya Standards.
(2) A Manufacturer, Importer, Distributor, Contractor or Technician shall ensure the warranty period is clearly indicated on any displayed Improved Biomass Cookstove product.

Disposal of Improved Biomass Cookstoves 12 The disposal of Improved Biomass Cookstoves shall be as per the applicable Kenya environmental laws and the relevant National Environment Management Authority Regulations.

Offences and Penalties

13 Any person who -

- (a) By self, servant, or agent undertakes or carries out any Improved Biomass Cookstoves manufacture, importation, distribution, contracting or installation work without being the holder of a Licence then in force appropriate to the work undertaken or carried out or without being under the direction of such a Licence holder;
- (b) contravenes or fails to comply with any of the terms and conditions of any Licence issued under these Regulations or willfully gives false or misleading information relating to these Regulations;
- (c) submits or causes to be submitted to the Commission or its agent a completion certificate, where applicable, which the person knows or has reason to believe is false in any material particular therein;
- (d) being an owner or occupier of any institution or any developer or contractor of any premises, causes or permits to be carried out upon the institution any improved biomass Cookstoves installation work in contravention of these Regulations or;
- (e) contravenes or fails to comply with any of these Regulations or who fails to comply with any prohibition or order of the Commission under any of these Regulations,

commits an offence and shall, on conviction, be liable to a fine not exceeding one million shillings, or to imprisonment for a term not exceeding one year, or both.

First Schedule

(r. 4(4))

List of Institutions

List of institutions required by Regulation 4 (4) to use improved biomass cookstoves-

- i. Schools
- ii. Hotels & Restaurants
- iii. Health Facilities
- iv. Prisons
- v. Colleges
- vi. Caterers
- vii. Safari Camps (for food cooking only)
- viii. Food Kiosks
- ix. Homes or Villages for Children, elderly and physically challenged
- x. Bakeries

Second Schedule

(r. 5(2))

Classes and Qualifications of improved biomass Cookstoves technicians

1. Class J1

Any person applying to be licensed as Class J1 improved biomass cookstoves technician shall have any of the following minimum qualifications-

- i. (a) Ability to read, write and with basic knowledge on energy efficiency & conservation, environment, and safety
(b) Ability to use measuring equipment/instruments used in installation of domestic cook stoves;
(c) Hands on experience where the person participated in successful installations of at **least ten** household Improved Biomass Cookstoves under supervision of an Improved Biomass Cookstoves Technician.

or

- ii. (a) Ability to read, write and with basic knowledge on energy efficiency & conservation, environment, and safety
(b) Ability to use measuring equipment/instruments used in manufacture or maintenance of household cookstoves;

(c) At least one year experience in manufacture or maintenance of household Improved Biomass Cookstoves under supervision of a Licenced Improved Biomass Cookstoves Technician.

2. Class J2

Any person applying to be Licenced as Class J2 Improved Biomass Cookstoves Technician shall have any of the following minimum qualifications-

- i. (a) Met all the requirements of Class J1;
(b) Be a holder of a KCPE certificate or equivalent and a Government Trade Test in welding/ Masonry /Plumbing or its equivalent and participated in successful installations of at least five institutional Improved Biomass Cookstoves under supervision of an improved biomass cookstoves technician;
(c) Basic qualifications on energy efficiency and conservation, environment, and safety

or

- ii. (a) Met all the requirements of Class J1;
(b) Be a holder of a KCPE certificate or equivalent and a Government Trade Test in welding/ Masonry /Plumbing or its equivalent and at least one year experience in manufacture or maintenance of institutional improved biomass Cookstoves under supervision of an Improved Biomass Cookstoves Technician;
(c) Basic qualifications on energy efficiency and conservation, environment, and safety

3. Class J3

Any person applying to be Licenced as Class J3 Improved Biomass Cookstoves Technician shall have any of the following minimum qualifications-

- i. (a) Met all the requirements of Class J2;
(b) Be a holder of a KCSE certificate or equivalent and participated in successful installations of at least five institutional Improved Biomass Cookstoves under supervision of an improved biomass cookstoves technician;

(c) Certificate in energy efficiency and conservation, environment, or safety

or

- ii. (a) Met all the requirements of Class J2;
- (b) Be a holder of a KCSE certificate or equivalent and at least one year experience in manufacture or maintenance of institutional Improved Biomass Cookstoves under supervision of an Improved Biomass Cookstoves Technician;
- (c) Certificate in energy efficiency and conservation, environment, or safety

Third Schedule (r.5 (3))
Technician's Licencing Fees

Technicians			
Class of Of Licence	Application Fee (KShs)	License Fee (Kshs)	Renewal Fee (KShs)
J1	400	1000	1000
J2	400	1500	1500
J3	400	2000	2000

Fourth Schedule (r.5 (3)) and (r.11 (1))

Technician's Licence Application Forms

APPLICATION FOR AN IMPROVED BIOMASS COOKSTOVES TECHNICIAN LICENCE

(This application form is for persons either applying for either Class J1, J2 or J3)

The Director General
Energy Regulatory Commission
P.O. Box 42681, 00100 GPO
NAIROBI

I

.....
hereby apply to be Licenced as an Improved Biomass Cookstove Technician in

accordance with the Energy (Improved Biomass Cookstoves) Regulations, 2013 for the following class* of Licence-

Please tick (✓) as appropriate

- Class J1 Licence, which shall entitle the holder to carry out installation and maintenance of Improved Biomass Cookstoves for households
- Class J2 Licence, which shall entitle the holder to carry out installation and maintenance of Improved Biomass Cookstoves for households and institutions
- Class J3 Licence, which shall entitle the holder to carry out installation, maintenance and specification for importation of Improved Biomass Cookstoves for households and institutions

Purpose of Application: New Application Renewal (Please tick (✓) as appropriate)

1. Name of applicant

.....
.....
.....

2. Details of applicant :

a. Nationality (attach a copy of Identification Card or Passport)

.....

b. Income Tax Personal Identification

Number:.....

c. Postal

Address:.....

.....

d. Email

Address:.....

e. Telephone or Cell phone

number(s):.....

f. Town/County:.....

.....

(Insert additional lines as appropriate)

3. Qualification Details

i. Academic qualifications

Attach the relevant certificates

4. Experience/ Professional qualifications.

Give a brief description of some of the key activities you have undertaken stating the place or institution and attach reference letters from your clients.

IMPROVED BIOMASS COOKSTOVES APPLICATION FORM

(This form to be used for application for an Improved Biomass Cookstoves Manufacturer, Importer, Distributor, Contractor and Technician)

The Director General
Energy Regulatory Commission
P.O. Box 42681, 00100 GPO
NAIROBI

I/We

.....
hereby apply to be Licenced as an Improved Biomass Cookstoves *Manufacturer, Importer, Distributor, And Contractor* in accordance with the Energy (Improved Biomass Cookstoves) Regulations, 2013 for the following class* of Licence-

Please tick (✓) as appropriate

Class B1 Licence, which shall entitle the holder to carry out manufacturing, distribution and installation of household biomass cookstoves only, in which case the Licencee shall be required to have in employment at least a Class J1 Technician;

Class B2 Licence, which shall entitle the holder to carry out distribution and installation of household and institutional biomass cookstoves, in which case the contractor shall be required to have in employment at least a Class J2 Technician;

Class B3 Licence, which shall entitle the holder to carry out manufacturing, distribution and installation of household and institutional biomass cookstoves, in which case the Licencee shall be required to have in employment at least a Class J2 Technician;

Class B4 Licence, which shall entitle the holder to carry out importation, distribution and installation of household and institutional biomass cookstoves, in which case the Licencee shall be required to have in employment at least a Class J3 Technician.
